

CSR Funding Proposal

Project Name:

Solar Water Purification Units for Drought-Hit Villages

Submitted by:

JalDhara Foundation

Region:

Vidarbha

Domain:

Water and Sanitation

Description:

Installs solar-powered water purification units at six village hand-pump clusters where groundwater tests unsafe for drinking, giving roughly 1,800 residents reliable access to clean water without a daily trip to the nearest treated source 4km away.

Requested Budget:

Rs. 9,00,000

Expected Beneficiaries:

1800

Implementation Plan:

Month 1: Site assessment and procurement of purification units.

Month 2-3: Installation and staff training at all six schools.

Month 4: Units operational, water quality monitoring begins.
